FULTON CONSTRUCTION

The Town of Fulton thanks our citizens for their patience during the ongoing construction to improve the streets and drainage in Fulton. We are working with the contractor and Grantworks/Texas General Land Office to have the work completed as soon as possible.

Currently, the completion date is approximately six months out; however, there have been delays due to unforeseen obstacles. Please keep in mind that this project, once completed, will be for the benefit of the citizens, and the Town's staff is diligently working with the necessary people to complete it.
